T.**; Tyler, S.; Carter, S.; Fricker, H.; Harwood, D.; Leventer, A.; Rosenheim, B.; Skidmore, M.; Priscu, J. and SALSA Science Team. "The life and death of a subglacial lake in West Antarctica," *Geology*, 2023, <https://doi.org/10.1130/G50995.1>

Bienert, N.; Schroeder D. M.; **Summers, P.T.** "Bistatic Radar Tomography of Shear Margins: Simulated Temperature and Basal Material Inversions," *IEEE Transactions on Geoscience and Remote Sensing*, 2022, <https://doi.org/10.1109/TGRS.2022.3213047>

Summers, P.T.; Dustin M. Schroeder, Matthew R. Siegfried. "Constraining Ice Sheet Basal Sliding and Horizontal Velocity Profiles Using a Stationary Phase Sensitive Radar Sounder," *IEEE International Geoscience and Remote Sensing Symposium*, 2021, <https://doi.org/10.1109/IGARSS47720.2021.9554535>

RESEARCH AND PROFESSIONAL EXPERIENCE

Rutgers University & Georgia Institute of Technology August 2024 - Present
Postdoctoral Researcher Atlanta, Georgia

Numerical modeling of ice Mélange and interactions with ocean currents and glacial dynamics.
Extending existing numerical modeling packages MITgcm and GLACIOME1D in fortran, python.

Stanford University Department of Geophysics September 2018 - June 2024
PhD Candidate Stanford, CA

Physical processes controlling Antarctic Shear margin locations, applied to Thwaites Glacier and other ice streams.
Thermomechanical ice flow modeling and ice sounding radar processing techniques focused on Antarctic shear margins.
Physical modeling using finite element analysis in Matlab. Worked with satellite, atmospheric, radar sounding data sets.

Dropbox Inc. August 2014 - July 2018
Software Developer San Francisco, CA

Designed, built and tested custom APEX solutions within Salesforce CRM for Sales, Finance and Product to meet business requirements.

Stanford University Department of Geophysics June 2013 - June 2014
Researcher, M.S. Candidate Stanford, CA

Authored article investigating mechanics of pre-explosive harmonic tremor in the 2009 Redoubt Volcano eruption.
Physical modeling using finite element analysis and PDEs in Matlab.

EDUCATION

Stanford University, Stanford California September 2018 - June 2024
PhD Candidate in Geophysics GPA: 3.94

Stanford University, Stanford California September 2010 - June 2014
B.S in Physics, M.S. in Geophysics GPA: 3.81, 3.89

TEACHING AND MENTORING

Mentor Graduate Student Peer Mentor for Stanford 1st year PhD students (1 hours per week)	October 2019 - June 2024
Tutor Graduate Student 1:1 Tutor Master's student for upper level math and engineering courses (2 hours per week)	October 2022 - June 2023
SESUR Program Assistant <i>Stanford Doerr School of Sustainability</i> Coordinate Stanford Earth Summer Undergraduate Research Program including field trips, weekly seminars, various social events. (10 hours per week)	April 2022 - October 2022
Mentor for Undergraduate Intern <i>Stanford Department of Geophysics</i> Mentored Stanford undergraduate modeling subglacial meltwater routing at Thwaites Glacier, Antarctica. Student presented work at AGU 2022 (3 hours per week)	April 2022 - August 2022
Teaching Assistant <i>Stanford University Department of Geophysics</i> Undergraduate geophysical methods course for imaging and characterizing groundwater systems. Partnership with community decision makers to recharge ground water. (12 hours per week)	April 2022 - June 2022
Co-Mentor for Undergraduate Intern <i>Stanford University Department of Geophysics</i> Mentored Stanford undergraduate on processing ice sounding radar film archive. (3 hours per week)	June 2021 - August 2021
Teaching Assistant <i>Stanford University Department of Geophysics</i> Undergraduate and Graduate course. Continuum mechanics applied to ice sheets and glaciers, water waves and tsunamis, and volcanoes. (6 hours per week)	January 2019 - April 2019

PROFESSIONAL DEVELOPMENT

CIRTL@Stanford Teaching Certificate Program <i>Associate Level</i> Recognition of commitment to undergraduate education, demonstrated through independent and collaborative learning at Stanford University and through the multi-institution Center for the Integration of Research, Teaching, and Learning (CIRTL) Network.	August 2023 Stanford, CA
Outdoor Leadership Apprenticeship <i>Apprentice</i> Apprenticeship in Outdoor Leadership, focused on rock climbing skills through experiential learning. Co-instructed 2x week long, field-based traditional rock climbing courses for 8 students in Joshua Tree National Park, as well as multiple vertical self-rescue clinics on campus.	March 2023 - June 2024 Stanford, CA
Preparing Future Professors <i>Mentee</i> 10 week shadowing program gave the opportunity to experience faculty life first-hand at a comprehensive, teaching-focused university or community college.	November 2022 - Jan 2023 West Valley College, Saratoga, CA
Center for Teaching and Learning Course Design Institute <i>Student</i> 6 week summer course on drafting curricula using evidence-based frameworks. Developed framework of glacial dynamics course focused on mass balance methods.	June 2022 - July 2022 Stanford, CA

FIELD EXPERIENCE

Thwaites Interdisciplinary Margin Evolution <i>Field Scientist</i> Wide offset (up to 4 km) bistatic, polarimetric radar survey using wireless and fiber optic synchronization techniques using modified pRES radar. Assisted with 2-D and 3-D active seismic survey. Surveyed and Deployed seismic nodes with GPS, assisted in active seismic explosive sources. 7 weeks in the deep field in a team of 16 with 2 guides.	Oct 2023 - Feb 2024 <i>Thwaites Glacier, West Antarctica</i>
Near-Surface Geophysics: Imaging Groundwater Systems <i>Teaching Assistant</i> Co-lead a class of 20 undergraduates to completed a 100 m seismic (hammer and betsy gun), 200 m electrical resistivity tomography, and towed transient electromagnetic survey imaging ground water connectivity in the top 40 meters of the subsurface. Worked with community decision makers to inform development of newly acquired public lands.	May 2022 <i>Coyote Valley, California</i>
Thwaites Interdisciplinary Margin Evolution <i>Field Scientist</i>	Oct 2021 - Jan 2022 <i>Thwaites Glacier, West Antarctica</i>

Completed a 5 km offset bistatic, polarimetric radar survey. Deployed and recovered seismic nodes in an active seismic survey using hammer source. Recovered passive seismic nodes and GPS stations. 3 weeks in the deep field in a team of 4 scientists and 2 guides.

AWARDS

Department Citizenship Award Stanford Department of Geophysics Award	June 2024
ARCS Scholar Northern California Chapter of the Achievement Rewards for College Scientists, 2x recipient for total of \$101,000	2022 - 2024
Best Graduate Poster <i>Research Review Symposium</i> Radar Attenuation Signature of Temperate Antarctic Shear Margins	May 2023 <i>Stanford Doerr School of Sustainability</i>
Stanford Earth Graduate Student Research Grant Grant of \$575 for field supplies for 2021-22 Antarctic field work.	Sept 2021

TECHNICAL STRENGTHS

Computer Languages	MATLAB, Python, FORTRAN, JAVA, SQL, APEX, SOQL, Javascript
Tools	HPC, Git, MITgcm, vim, MATLAB, L ^A T _E X, Sublime IDE
Field Skills	ApRES, Seismic Surveying (Ice and Land), ERT, GPS, Digging in Snow, Roped Travel, Snowmobiling, Crevasse Rescue, Vertical Rock Rescue
First Aid	Red Cross AED, CPR, Basic First Aid Certified (exp March 2024), WFA (lapsed)

OPEN SOURCE CODE REPOSITORIES

Zenodo https://zenodo.org/record/7106136 (Summers, et. al. 2023) https://zenodo.org/records/10783426 (Summers, et. al. 2024)	For Publications
Github https://github.com/somonesummers	Ongoing Research and Personal Projects

COMMUNITY BUILDING

Graduate Student Advisory Council Member Liaison between graduate students in the School of Earth and department and school level administration. (1 hour per week)	2019 - 2020
School of Earth Social Czar Host weekly social events for the School of Earth. (2 hours per week)	2018 - 2019

CONFERENCE ABSTRACTS

AGU 2024 Summers, P. T. ; Schroeder, D. M.; May, D. F.; Suckale, J. (2024, Dec). Constraints on the Thermal State of Antarctic Shear Margins from Integration of Thermodynamic Modeling and Airborne Ice Penetrating Radar Data.	Dec, 2024
AGU 2024 May, D. F.; Schroeder, D. M.; Summers, P. T. ; Teisberg, T. (2024, Dec). Multi-Offset Fiber Optic-Based Radar Arrays For Time-Lapse Imaging of Englacial and Subglacial Processes.	Dec, 2024
AGU 2024 Teisberg, T.; Schroeder, D. M.; Summers, P. T. ; Morlighem, M. (2024, Dec). Inferring Englacial Velocity from Interferometric Ice-Penetrating Radar Sounding: Opportunities and Challenges in Regions with Complex Internal Dynamics.	Dec, 2024
WAIS 2024 Summers, P. T. ; Robel, A. A.; Jackson, R. H. (2024, Dec). Not Your Average Berg: Development of a Coupled Mélange/Ocean Model.	Nov, 2024
EGU 2024 Emma C. Smith; et. al. (2024, April). Icequakes beneath Thwaites Glacier eastern shear margin.	Apr 18, 2024
EGU 2024 Daniel May; et. al. (2024, April). Multi-Offset Radio-Echo Sounding for Estimation of Englacial and Subglacial Thermal Conditions and Material Properties.	Apr 19, 2024
WAIS 2023 Meeting Summers, P. T. ; Andrew Hoffman; et. al. (2023, May). Historic Shear Margin Migration at Conway Ice Rise: An Integrated Data-Model Approach.	Sept 26, 2023

- SDSS 2023 Research Review** May 26, 2023
